Melbourne

International Keynote Speaker – Dr. Camille Cash

For more than two decades, double board-certified plastic surgeon Dr. Camille Cash has led an award-winning private practice by providing exceptional surgical and nonsurgical aesthetic treatments for the face, breast, and body to a diverse and discerning clientele. Dr. Cash and her team are dedicated to delivering the highest calibre of care and results.

One of the most acclaimed plastic surgeons in the Houston region, Dr. Cash served as an executive board member for The Aesthetic Society (formerly known as The American Society of Aesthetic Plastic Surgeons, ASAPS), The Aesthetic Surgery Research and Education Foundation (ASERF), and the Texas Society of Plastic Surgeons.

Dr. Cash is the first female African-American plastic surgeon in the state of Texas to be certified by the American Board of Surgery and the American Board of Plastic Surgery.

Trained in plastic surgery and certified by the American Board of Surgery and the American Board of Plastic Surgery, Dr. Cash is also a member of the American Society of Plastic Surgeons, the Houston Society of Plastic Surgeons, the Harris County Medical Society, and the Texas Medical Society. Dr. Cash prioritizes patients' safety and satisfaction to achieve the best possible results for her patients. "Whether I'm performing a facelift or breast reconstruction, my goal is to restore both function and form, and then to witness my patients' spirits take flight. It's a challenge and a privilege for me."

Specializing in breast augmentation, breast revision, breast implant removal surgery, tummy tuck, mommy makeover, and vaginal rejuvenation, Dr. Cash's focus is on transforming patients on the outside to achieve true change on the inside. Using cutting edge techniques and the latest technology to perform surgical and nonsurgical procedures, Dr. Cash's Houston plastic surgery practice and medical spa offers the highest quality care for patients to help you look and feel your best.

As one of Canada's leading cosmetic plastic surgeons for 25 years, Dr. Julie Khanna looks beyond the surgical procedure to the patient as a whole, from inner self to outer beauty. Each procedure is unique to each patient. The best results come from first understanding the patient's needs and desires, and then providing a tailor-made solution that meets the personal expectations of that patient.
